

# Dr. Russell Handorf

**September 13, 2022, 11:00 AM ET**

Mazur Hall, Room 203

*This event is only open to the Temple University students*

## “Mr. Robot was Real”

**Abstract:** Join me in a conversational journey about the intrusion of two major ISPs by a criminal over the course of 2 years. From this story, you should be able to learn multiple lessons about the importance of basic infosec hygiene.

Dr. Russell Handorf is an agent of chaos on Twitter and a recovering fed with 10 years of service defending the US and other countries. He's done a lot of odd things, but that isn't important. Have a conversation, but beware of the dad jokes.

You can follow Dr. Handorf on Twitter [@dntlookbehindu](https://twitter.com/dntlookbehindu)
