

Community Cybersecurity Clinics (C3)

The [Cybersecurity in Application Research, and Education \(CARE\) Lab](#), the Digital Equity Center, and the [Women in Cybersecurity Student Chapter](#) at Temple University are hosting a series of Community Cybersecurity Clinics (C3) in October and November in North Philadelphia.

The goal of the C3 is to promote cyberhygiene training and awareness for our community and arm its members with knowledge and best practices to protect themselves and their devices when working with technology.

These clinics are **FREE, interactive** (bring your devices and questions!), and open to the general North Philadelphia public. All clinics run from 12.30pm-3pm.

Clinic 1: Data & privacy

Friday, October 4 | Digital Equity Center

Clinic 2: Breaches, hacked accounts, and implications for your data

Wednesday, October 9 | Digital Equity Center

Clinic 3: Keeping your devices and online presence clean

Friday, October 18 | Free Library of Philadelphia, Lillian Marrero Branch

Clinic 4: Recycle day

Friday, October 25 | Digital Equity Center

Clinic 5: Frauds and scams awareness

Wednesday, November 20 | Free Library of Philadelphia, Lillian Marrero Branch

For more information on each clinic and to register, please scan the QR code on this flyer or visit:
