Would you like to gain
- Consulting Experience
- The ability to provide financial literacy to people in need
- The ability to go abroad
- To learn about a new culture?

Do you want to use your business skills to support those in need along side with gaining valuable consulting experience? Join Global Brigades May 12-22 on our trip to Honduras to facilitate microloans for rural families in need and consult microenterprises with basic business planning principles. During our brigade, you will get hands on experience in sustainable development, microfinance and work alongside families and micro entrepreneurs to dramatically improve their quality of life. With the assistance of local professionals and translators you will help community members create their own savings accounts, understand basic financial concepts, and have the opportunity to fund a loan!

For more information please contact Jade Byrd at tuglobalbrigades@gmail.com

Spanish Speaking is not necessary
All majors are encouraged
