**NEST Philly – Programming Intern**

Nest is looking for fun, energetic, hardworking individuals to be our Nest Programming Intern.

NEST is a kid-centric, parent-friendly enrichment center and indoor playground located in the heart of Center City Philadelphia. Refreshingly far away from the chaos of traditional playrooms, NEST creates an inviting childhood-meets-neighborhood oasis inside over 12,000 sq. ft. on three levels. Focused on nurturing creative stimulation, NEST provides plenty of space for kids, ages 6 weeks to 6 years, to play and learn while parents lounge, shop, and snack with them in a comfortable, modern setting. Here at Nest, we hold all types of classes from music, sports, movement, gymnastics, cooking, dance, and many more! We also have an Enrichment Program which are discussion based classes that lead up to a Preschool Bound series! We have the best classes in the Center City area, and Nest Philly will enrich your life at the same time as you enrich others!

Programming work may include, but is not limited to:
- Assisting in Enrichment and Development Classes
- Interacting with Parents and Children
- Creating classrooms
- Prepping crafts and creating new ideas for classes
- Potentially leading a NEW exciting class!
- Weekday and Weekend Work
- Reporting to Program Director

Benefits of being a Programming Intern:
- Part-Time work
- Flexible Schedule
- Exciting opportunity to learn how classes are created.
- Work side-by-side with the Program Director.
- Great experience for education students in the Elementary field.
- Fun Environment
