The DePaul Catholic School – 6th-8th Grade Mathematics Long Term Sub

The position begins in mid-April through the beginning of June.

DePaul Catholic is a school of over 400 students in grades pre-kindergarten through 8th. We are part of Independence Mission Schools, a non-profit organization managing a network of 15 Catholic elementary schools across the city of Philadelphia. We are committed to providing a high-quality, low-cost, faith-based education to children, to set them on the path to college and beyond. Our vision is that we see rigorous learning and teaching happening in all classrooms. Students constantly strive to succeed and are accountable for their work; teachers facilitate instruction by supporting student learning and the classroom is a positive environment of high-expectations. We work to build opportunities for the community and parents to be actively involved in student learning.

The ideal candidate is invested in his or her students' growth and is comfortable using data to drive instruction. The candidate must be willing to work as a team and must be committed to his or her own professional growth. Familiarity with the classroom management techniques in Teach Like a Champion are a strong plus.
