**Description:**

Temple University, in partnership with PSCSW, is offering a 20-hour certificate program in clinical supervision. This program, hosted at Temple University – Ambler, will prepare participants to provide clinical supervision to graduate level clinicians seeking licensure or professional development. Through the use of lecture, case method discussion, interactive journaling and reading, participants will examine developmental and relational models of supervision, with an emphasis on the parallel process of supervision. The course concludes with two supervision groups in which supervisory vignettes brought in by participants will be utilized to illustrate the theoretical constructs.

**Objectives:**

Participants successfully completing this program will be able to:

1. Enumerate and compare several models of clinical supervision
2. Distinguish and demonstrate specific supervisory skills and techniques
3. Integrate concepts of parallel process into supervision
4. Formulate a personal supervision philosophy
5. Recognize and discuss how to approach ethical issues that commonly emerge in supervision

**Continuing Education Credits:**

This program has been approved for 20 continuing education hours (3 of which fulfill the ethics requirement) through co-sponsorship of TUH, a PA State Board of Social Workers, Marriage and Family Therapists and Professional Counselors pre-approved provider of continuing education. These credit hours satisfy requirements for LSW/LCSW, LMFT, and LPC biennial license renewal. Certificates of attendance documenting continuing education hours will be issued by Temple University Harrisburg.
