SAFETY TRAINING

<i>Present</i> SEPT 2019	Temple University Brain Research Imaging Center Level 3 Access <i>Temple University, Philadelphia, PA</i> I have completed level 3 access training in our department's brain imaging center, allowing me to lead MRI scans, set up protocols, schedule appointments, perform screening, operate the SIEMENS console, and supervise and manage the acquisition and maintenance of our MRI data. Level 3 access requires having extensive background of the safety procedures required for operating the MRI, and knowledge of the necessary response protocols to follow in the event of an emergency.
<i>Present</i> SEPT 2018	Building Emergency Management Team Member <i>Weiss Hall • Temple University, Philadelphia, PA</i> As part of Temple's emergency response team, I am in charge of managing my floor during a variety of emergency procedures including evacuation, shelter-in-place, and lock-down scenarios. My main function is to ensure building occupants on my floor are compliant with safety protocols, and that they are safe throughout drills and real-life building emergencies.
