The following opportunities are included in this issue:

1. Welcome Back – So Many Professional Development Opportunities - Save the Dates!!
2. Check Out Tech – Female Networking Event
3. GSK Reveal Program – Learn about career paths in the Pharmaceutical Industry – REGISTER NOW!!! Limited Seating – New Contact Information!!!
4. The National Institute on Drug Abuse (NIDA) - Summer Internship
5. Summer Research at Univ of Penna – Deadline 2/1
6. Summer Internships at Merck!! – You need to use Linkedin
7. Janssen R&D Pharmaceutical Development and Manufacturing Sciences (PDMS) R&D Summer Internship

1. Welcome Back – So Many Professional Development Opportunities - Save the Dates!!

Professional Development & Summer Research Day in SERC Lobby Wed 1/21

Check Out Tech Tuesday January 27th 5pm-8pm - See below – Register HERE

Job Fair Prep Event Thursday February 12th 5pm-8pm – More to come!

ACM Networking Mixer February 18th 4pm-8pm - More to come!

CST Job Fair February 25th 9am-5pm - Student Registration HERE

2. Check Out Tech – Female Networking Event
Calling all Female Students....Check Out Tech! Learn how to get into the technology field, even with a different
major! Come to network with Professional Women in the Computer/Information Technology profession to get a better understanding of what a career in IT is like and how you might consider a career in the technology field. Temple's CIS department has partnered with the NWCT (National Women in Computing Technology) to provide this event.

**Besides being a networking opportunity, we will be raffling-off an IPad and gift cards.**

Nationally, only 18% of students graduating from Computer and Information Science programs are female. The job market continues to explode, and getting more females into this exciting, creative and innovative career path is critically important. This is the fastest growing area in STEM and the one with the fewest females. Companies are clamoring to get more talented females hired. There are opportunities for you - and it is not always a traditional path to get to them!

Event Date: 1/27/2015  
Event Time: 6:00 PM - 7:30 PM  
Event Location: SERC Lobby  

Contact Name: Wendy Urban  
Contact Phone: 6103496546  
Contact Email: wurban@temple.edu

**Registration details and deadline:** To learn more about the event and register – HERE

3. **GSK Reveal Program – Learn about career paths in the Pharmaceutical Industry – REGISTER NOW!!! Limited Seating**

The Early Talent team at GlaxoSmithKline is proud to host our first annual “GSK REVEAL” on Friday, January 30, 2015 from 12pm- 5:00pm at our Navy Yard location in Philadelphia PA. The event is an opportunity for students from local universities to visit our flagship site and learn more about our company, the impact we have on the community around us and the career paths within the pharmaceutical industry. The afternoon will include a luncheon, panel discussions with business leaders, presentations, and networking opportunities.

Please share this event with your students (freshman – senior year) who are interested in the Health Care industry. We are open to all majors. Our only requirements are students in good academic standing (GPA of 3.0 or better), an aptitude for leadership, and a true desire to make a difference.

**We have limited number of spaces available for this event.**

Students must reply via email by sending their RSVP to by **Monday, January 26, 2015.**

Send an Email to Maura Daddario at Maura.x.daddario@gsk.com (215-751-3160)

Due to space limitations, acceptances will be done on a “first-come-first-serve” basis.

If you have any questions, please contact Maura Daddario at Maura.x.daddario@gsk.com (215-751-3160)
4. The National Institute on Drug Abuse (NIDA) - Summer Internship

Interested in a Summer Research Internship?

(Submission Deadline: February 14, 2015)

The National Institute on Drug Abuse (NIDA) invites high school and undergraduate students interested in pursuing a career in science to submit applications for the 2015 Summer Research Program. To apply and for complete program information, see the online application form.

- Interns work with NIDA-funded scientists (online brochure (PDF, 2.1MB)) for 8 weeks in the field of substance abuse and addiction research at research institutions across the United States. Internships may involve a variety of experiences including laboratory experiments, data collection and analysis, patient interviews, literature reviews and more.

- Interns receive a stipend (high school $10/hr., undergraduates $12/hr.), and if necessary and eligible, provisions for travel and housing expenses.

- NIDA encourages the participation of high school and undergraduate students who are members of racial/ethnic populations that are nationally underrepresented in the biomedical, behavioral, and clinical sciences, although students of any race/ethnicity may apply. College seniors (class of 2015) are also eligible.

**Application Deadline- February 14, 2015**

For program details, see the online application form.

Questions regarding the NIDA Summer Research Program can be directed to, Julie Huffman at Huffmanj@mail.nih.gov.

Office of Diversity and Health Disparities, NIDA

Summer Research at the University of Penn

I'm writing to let you all know that SUPERS@PENN is accepting applications for the summer of 2015. SUPERS@PENN is an NCI/NIH funded summer research internship opportunity at the University of Pennsylvania. The program is open to rising junior and senior science majors (Physics Chemistry Biology etc).

To apply students must have a GPA of 3.2 or better. They also must be either US citizens or have permanent residency status. Students spend 10 weeks beginning in June working on an individually-tailored hypothesis driven research project under the direction of an NIH funded faculty mentor. SUPERS students are housed on campus and they receive a generous stipend for the time they spend working in one of our laboratories. There are also limited funds available to help defer the cost of travel to and from Philadelphia.

For additional information - here is the website and facebook page
The deadline for completed applications is **February 1st 2015**, but there is some leeway available for recommendations and transcripts as long as the student has filled int he application and submitted it to me by email. Students can also feel free to contact me at tuttle@uphs.upenn.edu if they have specific questions about SUPERS.

**Summer Internship at Merck – you need to use Linkedin to find these!!!**

If you think that professional social media is not important – just take a look at all of the internships that are now posted on LinkedIn!! You need to be using this if you are seeking an internship in a particular organization. Here are the basics that you need to do to find any opportunity.

**First** – set up a linked in account – here are links on how to do it – it is very simple and all you need to do is load some information off of your resume.

**Second** - spend some time looking at the companies you would love to work at – so how about Merck?

Go to the Jobs tab – then enter Merck Internship – wait till you see all of the possible internships you can apply for. Then do the same for Dow Chemical Internship – WOW

Here is another good article that will give you more information

There is also sessions on using Linked In offered by the University Career Center –

**LinkedIn 101**
Tuesday, February 24; 10:00 - 11:00 a.m.
Thursday, March 12; 4:00 - 5:00 p.m.
Monday, April 20; 4:00 - 5:00 p.m.
Mitten Hall, Room 250
*Open to Students and Alumni*

Go to their web page for more information - [http://www.temple.edu/provost/careercenter/students/events.html](http://www.temple.edu/provost/careercenter/students/events.html)

**Janssen R&D Pharmaceutical Development and Manufacturing Sciences (PDMS) R&D Summer Intern Job**
Johnson & Johnson - Spring House, PA
Johnson & Johnson companies are equal opportunity employers.
Janssen Research & Development Pharmaceutical Research & Development, L.L.C., a member of the Johnson & Johnson Family of Companies, is recruiting for a Pharmaceutical Development and Manufacturing Sciences (PDMS) Summer Interns to be based in NJ or PA. The duration of this co-op is May through August.

Janssen Research & Development (Johnson & Johnson) Pharmaceutical Research & Development, L.L.C., develops treatments that improve the health and lifestyles of people worldwide. Research and development areas encompass novel targets in neurologic disorders, gastroenterology, oncology, infectious disease, diabetes, hematology, metabolic disorders, immunologic disorders, and reproductive medicine.

The Intern will support the PDMS group, a part of Johnson & Johnson Pharmaceutical Research & Development. The PDMS organization is responsible for the development of technology used in the large-scale manufacture of pharmaceutical products including active pharmaceutical ingredients, formulations, analytical methods, and devices to enable patient dosing of these pharmaceuticals. PDMS is also responsible for the manufacture of toxicology supplies and clinical supplies intended for phase 1 and phase 2 studies.

Opportunities for Interns exist at our PA and NJ facilities in the following groups:

Active Pharmaceutical Ingredient - Large Molecules

Drug Product Development

Analytical Development

Strategic Operations

Supply Management
