Course Catalog Details

STAT 1001 (3 Hours)

Quant Methods for Business I

Fundamentals of finite mathematics necessary for a business student to pursue statistics and other quantitatively oriented business courses. Topics and illustrations are specifically directed to applications in business and economics. Topics include algebraic concepts; linear, quadratic, polynomial and rational functions; logarithm and exponential functions; elementary matrix manipulations. Fitting of curves, interest rate calculations, present and future values of annuities are some of the specific applications. Use of a graphic calculator. NOTE: (1) This course can be used to satisfy the university Core Quantitative Reasoning A (QA) requirement. Although it may be usable towards graduation as a major requirement or university elective, it cannot be used to satisfy any of the university GenEd requirements. See your advisor for further information. (2) Prior to fall 2014, the course title was "Pre-Calculus for Business."

Adding Courses

To add a course to your Plan just **click and drag** the name of the course on the Roadmap that you want to add. Position it **directly over the name** of the target semester, which will highlight itself in blue. Then **release**.

The screenshot illustrates the process of adding a course to a plan. On the left, a course list is shown under the heading "GenEd Analytical Reading And Writing". The courses listed are:

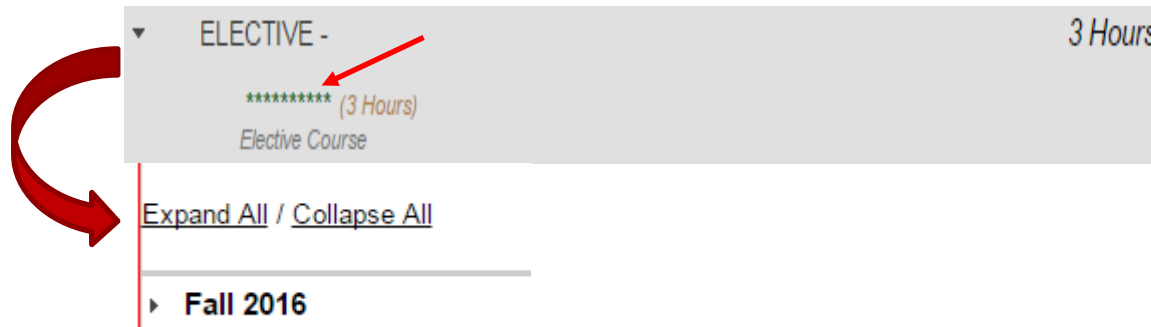

- ENG 0802 (4 Hours) Analytical Reading & Writing
- ENG 0812 (4 Hours) Analytical Read/Wrtg ESL

A red arrow points from the course name "ENG 0802" to a semester slot on the right. The semester slot "Spring 2016" is highlighted in blue, indicating it is the target semester. The right side of the interface shows a list of semesters from Spring 2016 to Spring 2019, each with a "0 Hours" value.

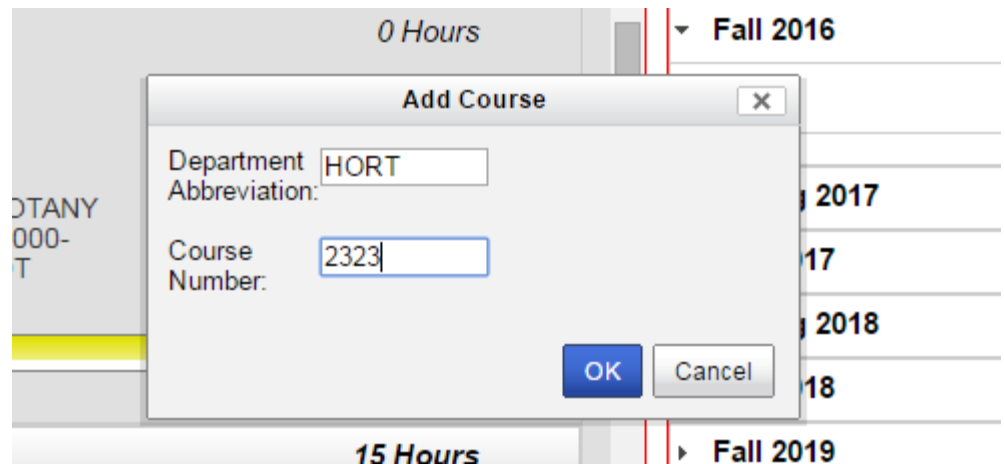

Course	Hours
ENG 0802	0 Hours
Spring 2016	0 Hours
Fall 2016	0 Hours
Spring 2017	0 Hours
Fall 2017	0 Hours
Spring 2018	0 Hours
Fall 2018	0 Hours
Spring 2019	0 Hours

Adding Wildcard/Elective Courses

Some courses, like Free Electives, are represented by a string of wildcard characters rather than an individual course name. To add one of them to your Plan, simply **drag the wildcard string** over like any other course.

Then, when the popup appears asking what course you want to add, enter the **Department Abbreviation and Course Number** for the desired course, and then **click OK**.

Moving Courses on the Plan

If you want to move a course to a different semester, **click its name and drag it**. Position it **directly over the name** of the target semester, which will highlight itself in blue. Then **release**.

The screenshot shows a course plan interface. At the top, there is a section for 'Fall 2016' with '4 Hours' and an edit icon. Below this is a course entry for 'ENG 0802 (4 Hours) Analytical Reading & Writing'. At the bottom, there is a section for 'Spring 2017' with '0 Hours' and a trash icon. A red curved arrow points from the course name in the Fall 2016 section towards the Spring 2017 section, indicating the movement process.

Deleting Courses

- If you want to delete a course, **select the Edit Button** next to the semester it is in.
- **Click the check mark** next to the course you want deleted. Then **select Delete**.
- **Select Yes** on the pop-up.

The screenshot shows a course plan interface with two 'Spring 2017' sections. The top section shows '4 Hours' and an edit icon. Below this is a course entry for 'ENG 0802 (4 Hours) Analytical Reading & Writing'. The bottom section shows '4 Hours' and a 'Delete' button. A red arrow points from the text 'select the Edit Button' to the edit icon in the top section. Another red arrow points from the text 'Click the check mark' to the checkmark icon next to the course name in the bottom section. At the bottom of the interface, there are 'Submit' and 'Cancel' buttons.

Adding Semesters

To add a semester, **click the Plus Sign Icon** at the top of the Plan.

Select the year and term to add from the drop-down menus. **Click ok.**

Removing Semesters

To delete a semester, **click the Trash Can Icon** to its right.

Select Yes on the pop-up.

Important Step: Checking with an audit

Once a Plan is complete, verify the Plan by **running an audit**. The **audit button** can be found on the Plan side of the Academic Plan page; it looks like a **pie-chart**. Click this button to run an audit.
