HERE

Dear Chris & Bridget,

We were thinking of you both while here, visiting Achill Island. Our family has visited this spot for decades and it always brings back so many memories.

We know how much you wish you could be here this summer, so we made a video to make you feel like you're here with us. Scan the front of the card with that app we told you about!

In the meantime, we'll be looking forward to next summer when the entire family can be here together again.

Sláinte,
Tom & Savannah
