

Lip Balm

Ingredients

- 10 drops of [Orange \(Sweet\)](#)
- 1 ounce of Coconut Oil
- 1/2 ounce of [Jojoba Wax \(Organic\)](#)
- 1/2 ounce of [Beeswax Pellets - Organic](#)
- 12 Lip Balm tubes

Directions

Melt 1/2 oz. beeswax and 1/2 oz. jojoba in a double boiler. When melted take off the stove, add the coconut oil and the orange essential oil. Stir until melted and pour immediately into lip balm tubes. You will find a lip balm tray very helpful (<https://www.sks-bottle.com/340c/fin77c.html>).

For a double boiler, try a Pyrex measuring cup rested in a soup pot filled half way with water. Will fill about 12 lip balm tubes.
