

There's someone else here  
I can hear them crawling  
Calling me closer, closer  
Closer to my doom  
**There is no one here but me.**

It wishes to entomb me  
To capture my essence  
To sentence me to hell  
Well, I won't allow it  
**I am not in danger, I am fine.**

Things move in the night  
My home is no longer mine  
I no longer recognize my face  
My writing shifts and twists  
**I do not need to be saved.**

The chase continues  
I must find the intruder  
Before it claws into my sinews  
Wait, when did I write that?  
**I just need to sleep it off.**

No! I did not write that!  
**Yes you did, its right here on the paper.**  
No! Where are you defiler!  
**I am nowhere, because you are alone.**  
Horrid clone, show yourself!

**There is no one to see**  
Liar! Liar liar liar liar!  
**You look tired, go to sleep.**  
No, no I can't! I won't!  
**But you must go to sleep.**
