Psychological/emotional (possible)	Joy & excitement

**How to Simplify the Activity**

Have the participants make less connections with the animals and mainly focus on identification and the body movements related to the animal

**How to Make the Activity More Complex**

Make the participants connect the animal on the screen to more aspects (e.g., scenarios, related words, movies with the animal in it, what the animal eats, etc.)

**Other Comments**

VECTA sensory stations cost anywhere from \$2799 to \$6599  
The SNAP projector wheels cost an additional \$73 per wheel
