

The Technology Fellow Program at Temple

We Started in the Fall of 2013

- We selected **5 upper level undergraduate students** to be a Technology Fellow, receiving a stipend.
- We selected **25 faculty members** to receive a Technology Fellow.
- Each Fellow spends **10-15 hours per week**: one hour with each of 5 faculty members, one hour in a meeting with the other Tech Fellows and their Faculty Mentor, and additional preparation time, e.g., researching ideas or writing up tutorials, or visiting classes.

Context and Support for Fellows

- The Tech Fellows and their faculty members can rely on help from the **Instructional Support Center**, for example learning special features of Blackboard, or WebEx (online group chatting), or Camtasia (recording lectures).
- The Tech Fellows and their faculty members can also utilize the services of the **Teaching and Learning Center**.
- Many of their problems or questions are resolved during the weekly meeting with their “fellow” Fellows (and Faculty Mentor).
