General Landscape Notes:

- All plant material shall conform to the American Association of Nurseryman Standards.
- Additional plant material may be installed on site by Owner in accordance with the Township landscape standards.
- All plant material shall be maintained in a healthy and growing condition, and replaced with plant material of similar variety and size if damaged, destroyed or removed.
- Landscape areas shall be kept free of trash, litter and weeds.
- All landscape areas shall be protected from vehicular traffic through the use of concrete curbs, wheel stops or other permanent barriers.
- All landscape areas shall be constructed, installed and maintained so as not to obstruct view of motorists between the street and access drives.
- Accept areas noted for sod, all disturbed permeable surfaces not occupied by trees, shrubs, planting beds, signs, and other permitted items or features shall receive minimum 4" topsoil and be reseeded with specified lawn mixture. All shrub beds and tree saucers shall be mulched as detailed. See civil drawings for Limit of Work.
- Landscape Contractor is responsible for verification of all plant quantities.
- Full bed preparation typical.
- Landscape Contractor to provide a unit cost (including installation) for ALL items.
- Verify location of all utility lines prior to installation. Field adjustment for general intent if conflict exists.
- When the same species of trees are paired or grouped in 3 or more, they should be matched in size, shape, growth characteristics, etc.
- Project Landscape Architect shall tag all trees at nursery.
- Landscape Contractor is responsible for the calculation of all sod/irrigation & hydromulch quantities.
- Landscape Contractor is responsible for all watering operations for two months after owner acceptance.
- Plant material availability shall be confirmed by Landscape Contractor prior to bidding. Should specified material not be available, the Landscape Architect and Owner shall be notified prior to bid date.
- Landscape Contractor shall not eliminate, substitute, and/or downsize plant material without prior approval of Owner and Landscape Architect. Minimum standards and requirements of the Township Landscape Submittal plan must be maintained.
- Plant substitutions may only be made if a plant becomes unavailable. Substitutions will not be permitted unless substantiated written proof is supplied that a specified plant is not obtainable. In this situation a plant can only be submitted by a plant of similar size, habitat, and value. Absolutely no substitutions can be made without the approval of the project Landscape Architect.
- All planting areas use 3" of shredded Cedar Bark Mulch.
- All Betula nigra should be installed during the Spring planting season only.
- Landscape Contractor to verify all landscape plant quantities. Landscape contractor is responsible for all final tree shrubs and ground cover quantities as drawn on plan - drawing takes precedence over legend and quantities on plant call out tags in case of discrepancies.
- See Civil Drawings for existing tree protection.
- See Civil Drawings for limit of work.
- Planter tree well mulch to be 3" depth Crushed Linwood Granite from Kafka Granite (www.kalkagrante.com)
